"England and Germany will find that they have undertaken quice a job in trying to whip Venezucia into submis sion. It is a nation of fighters, trained to the use of the gun and sword from youth. In their revolutions they neither ask nor give quarter and no prisoners are ever taken."

This was the remark of L. B. Tussing, a Columbus attorney who has spent much time in Venezueia. He continued:

"I have been in almost all the South American countries and believe that the powers will find that they have entered upon no holiday campaign in South America.

"Venezuela is a rich country, if its resources were developed, and has the grandest scenery on the South American continent. The railroad from Caracas to Valencia, built by Germans, one of the causae belli in the present trouble, is one of three greatest pieces of engineering in the world.

"It is but 55 miles in length, but It has 86 tunnels and 220 fine iron bridges in that distance. No army could march from Caracas to Valencia, for a handful of men could bar the passage.

"The railroad which runs from La Guayra to the capital, Caracas, is 24 miles long, vet the distance in an air line is but six miles. If sufficient elevation could be obtained I see no reason why Caracas could not be bombarded from La Guayra. There is a range of the coast mountain about 3,000 feet high, which it would be necessary to shoot over, so it is hardly possible that the feat could be accomplished.

"For three weeks I slept under the walls of one of the forts at Puerto Cabello, which was bombarded by the allied fleet Saturday. A hundred years ago they might have been called fortifications, but in this age of the world are not worthy of the name.

REPRESENTATIVES OF CALDON-IAN CHURCH IN THE CITY.

Trying to Raise Money in This Country to Help Them. in Their Work.

East Liverpool was visited yesterday and the day before by two representatives of the Caledonian church of Asia. The two gentlemen referred to are Deacon Gregory and Deacon Cross, both regularly ordained ministers of Caledonia. They have been in the United States about five months in the interests of their church and schools. Their mission here was to raise funds chancellor of the Wheeling diocese, for their work in Asia. The representies ran to his rescue. Dr. Hobbs, of stating that the bishop has appointed tatives of the Caledonian church had excellent leters of recommendation from the high officials of their church, as well as from many of the bishops

of the different churches in America. They have been engaged in this work since reaching America and the past two months have been working in Pennsylvania. In that state there are many fellow countrymen and they were very successful, raising quite a sum of money. They came from Steubenville to East Liverpool, these being the first two cities visited in Ohlo. Their visit here did not net them much money, although they succeeded in collecting some. Their chief difficulty here was in making people understand them. They have had but very little practice in using the English language before reaching here, but considering the fact that they have been here only five months they spoke exceedingly

From here the two deacons left on Hood tendered his resignation as past the afternoon train for Pittsburg: tor. It was accepted. He has accepted There they expect to find natives; of Caledonia and expect also to secure more funds for their church and school work. From Pittsburg the two divines will go to Cleveland to continue their work. They made a very favorable impression during their brief visit to East Liverpool and aside from collecting some money secured several excellent sletters from local ministers recommending them to the general public. Should the two dea cons return to East Liverpool while in the United States they will find a number of persons here ready to give them a hearty welcome and m

The Men Who Look After Railway Mail Service Have Their Hands Full Now.

These are busy days for the railway nail clerks.

The work of the railway mail clerk is not particularly exhaustive, but this is the time of the year when the ployes in the service of Uncle Sam. The present rush is due to the proximity of Christmas. The presents have begun to move in all directions, and this means work for the postal cures Rheumatism, Catarrh; heals all Scabs, Scales, Eruptions, Watery Blisters, by giving pure, healthy department. The employes who have the bulk of this work to attend to are the men upon the mail cars.

Cleveland is one of the large mail divisions of the government, and probably as many railway clerks have headquarters there as in any mail division in the country. The rush usually begins about ten days before Christmas and within a day or two Reed. Call or write. Blood Bains sent by express. Sample and Circulars sent Free. Christmas and within a day or two the business grows to such large proportions that not only are the "extres" and substitutes set to work, but the regulars are compelled to work overtime.

These are trying times in the postal department. Everybody connected with the service is affected. The mail carriers suffer next to the train clerks. This season will prove to be exceptionally arduous, owing to the early opening of the season. freezing point has put to rest all fears About December 4, 21 days before of a flood that might have resulted from the recent heavy fall of rain and row eight days before Christmas, the extra business set in, and has gradually increased until row eight days before Christmas and now, eight days before Christmas, and snow. POROUS PLASTERS

Are a universal remedy for Pains in the Back (so frequent in the case of women). They give instantaneous relief.
Wherever there is a pain apply a Plaster.

DIRECTIONS FOR USE

For Rheumatism or Pains in Shoulders, Elbows or elsewhere, or for Sprains, Stiffness, etc., and for Aching Feet, cut plaster size and shape required and apply to part affected as shown above.

Rheumatism, Colds, Coughs Weak Chest, Weak Back Lumbago, Sciatica, &c., &c.

If you want the best results, the quickest and cleanest cure, use Allcock's Plasters. They are far superior to belladonna, which is the extract of deadly night shade, a virulent poison, and never should be used except by direction of a physician. Allcock's Plasters contain no poisons. They cure by absorption. Absolutely curative, perfectly harmless. Read letter from Prof. Henry A. Mott, the eminent chemist.

"My investigation of Allcock's Porous Plaster shows it to contain valuable and essential ingredients not found in any other plaster, and I find it superior to and more efficient than any other plaster."

A Sure Sign of Kidney Trouble. Dr. Kennedy's Favorite Remedy will cure you.

Pain in the back is a never failing sign of kidney disease; another sure sign is the condition of the urine; if you have a pain in the back then look to the condition of your urine. Take a glass tumbler and fill it with urine; after it has stood 24 hours, if it has a sediment, if it is milky or cloudy, pale or discolored, stringy or ropy, your kidneys and bladder are in a dangerous condition and need immediate attention, or the consequences may prove fatal. F. C. Wilcox of 559 New Britain ave. Hartford, Conn., says:

Hartford, Conn., says:

"I had a frightful pain in my back, the result of kidney trouble. My physician seemed powerless to relieve me. I determined to try Dr. David Kennedy's Favorite Remedy; it helped me wonderfully, and in a short time curad me completely." time cured me completely.'

Dr. David Kennedy's Favorite Remedy is the one medicine that really cures all diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia and chronic constipation. It is wonderful how it makes that pain in the back disappear, how it relieves the desire to urinate often, especially at night, and drives away that scalding pain in passing water and makes you well and strong.

Cuban Treaty Discussed and Regarded as Highly Important that It Should Be Ratified at Once-Senate and House Proceedings.

Washington, Dec. 17.-President the most extended and important meetings yesterday that has been held this fall. Foreign affairs particularly consumed the entire time of the session. The Venezuelan situation was discussed in all its phases, but no conclusions were reached different from that which has actuated the president and his advisers throughout the consideration of the troubles between Venezuela on the one side and Germany and England on the

Cuban Treaty.

The treaty with Cuba, which was negotiated in havana by General Bliss, and which arrived in Washington in General Bliss' hands yesterday, was presented to the cabinet and considered in detail. It is ready for presentation to congress and probably will be transmitted to the senate within 24 bours. It is regarded as highly important that it should be ratified promptly, as the present Venezuelan situation emphasizes the necessity for coaling stations in Cuba While definite action upon the treaty by the senate, or by congress, if the necessity arises to present it also to the house of representatives, is scarcely to be expected before the holiday recess, the administration is hopeful of prompt consideration of it after congress convenes.

FIEN thousand cured women have written to tell how Wine of Cardui bestows the blessing of health on every woman who takes it, rich and poor alike. Mrs. Helena Blau, No. 123 Seventh Street, Milwaukee, Wis., is one of the young women whom Wine of Cardui has rescued from a life of suffering. She writes:

wine of Cardui is certainly worn to give my experience with it. A few months ago I caught a severe cold, having been out in inclement weather, which settled all over me, particularly in the abdomen. I was in almost constant pain. I consulted a physician and took his medicine for a month and without any relief. I then decided I would try your medicine and it was a lucky day for me when I did so. Cuban Treaty Discussed and Regarded as Highly Important that it Should Be Ratified at Once-Senate and House Proceedings.

Washington, Dec. 17.-President provement in every way to Roosevelt and his cabinet had one of the most extended and important meetings yesterday that has been held this fall. Foreign affairs particularly consumed the entire time of the session. The Venezuelan situation was discussed in all its phases, but no conclusions were reached different from that which has actuated the president and his advisers throughout the consideration of the troubles between Venezuela on the one side the plant in the city of East Liverpool the year just ending has been very sat. Other than this only the usual routine and Germany and England on the

Cuban Treaty.

The treaty with Cuba, which was negotiated in havana by General Bliss, and which arrived in Washington in General Bliss' hands yesterday, was presented to the cabinet and considered in detail. It is ready for presentation to congress and probably will be transmitted to the senate within 24 bours. It is regarded as highly important that it should be ratified promptly, as the present Venezuelan situation emphasizes the neces sity for coaling stations in Cuba. While definite action upon the treaty by the senate, or by congress, if the necessity arises to present it also to the house of representatives is scarcely to be expected before the holiday recess, the administration is hopeful of prompt consideration of i

Senators Talk on Venezuela.

The Venezuelan question occupied the attention of the senate in executive session yesterday for almost an hour. The question came up formally almost immediately after the house was excluded. Senator Teller, disclaiming all intention of being crit ical, and saying he merely desired information, asked Senator Cullom. chairman of the committee on foreign relations, for the information he possessed as to the Venezuelan affair. Mr. Teller, in inquiring, said that the situation is such that senators felt that the Monroe doctrine at any time might become involved, if the complication should continue.

Senator Cullom replied to the inquiry that he had no knowledge of recent events not contained in the public prints. Senators Bacon, Hoar, Lodge and Stewart all made remarks. In none of the addresses was anything harsh or critical said. The tone of all the speeches, whether by Republicans or Democrats, was that the attitude of this nation should be one of watchfulness. There was a gen eral agreement that while the means adopted by Great Britain and Germany for the collection of their debts had been quite strenuous, they thus Wm. D. Perkins, A. S. Plankinton, Dan far had committed no infringement of the Monroe doctrine, and, therefor had done nothing to which the United States could take exception.

GILL A CANDIDATE

The Popular ex-Sheriff the Latest Enter the Mayoralty

biana county, had been approached by his friends with a view of obtaining his consent to become a candidate for mayor, and last evening the formal an nouncement was made.

Charles Gill is one of the best known men in this part of the state, and has until recently been in public life for many years. His record as a public officer is above reproach, and he conducted the affairs of the several positions with honor and distinction. His career has been a remarkably clean one, and his every act has been characterized by careful consideration and excellent business judgment. Mr. Gill would make a good officer, and his many friends are confident that he will win.

Salary Question Elsewhere. Two more cities in East Liverpool's class have fixed the salaries to be paid | 297-h under the new code, but neither on deems the town in need of a Police Judge. At Chillicothe it has been de cided that councilmen are to recen \$100, mayor \$800, auditor \$900, s citor \$600, treasurer \$500, public service (three members) \$1,500, public safety (four members) \$200. President of council \$100, total \$5,300, again \$4,710, under the old regime. At Mar sillon, under the new code, the mayor salary has been reduced from \$1,20 to \$1,000. Members of council will re ceive \$150. The city auditor will re ceive \$800. Chief of police \$800. Fir chief \$840. City solicitor \$600. Tot

NATION OF FIGHTERS II

What an Ohio Man, Familiar With Them, Says of the Venezuelans.

THE COUNTRY A RICH ONE

People Kind And Hospitable, Bul Come of Fighting Stock-Facts About Caracas And the Marvelou Sceneries About the Capital.

"England and Germany will find that they have undertaken quice a job in trying to whip Venezueia into submission. It is a nation of fighters, trained to the use of the gun and sword from youth. In their revolutions they neither ask nor give quarter and no prisoners are ever taken."

This was the remark of L. B. Tus sing, a Columbus attorney who has spent much time in Venezueia. He continued:

"I have been in almost all the South American countries and believe that the powers will find that they have entered upon no holiday campaign in South America.

"Venezuela is a rich country, if its resources were developed, and has the grandest scenery on the South American continent. The railroad from Caracas to Valencia, built by Germans, one of the causae belli in the present trouble, is one of three greatest pieces of engineering in the world.

"It is but 55 miles in length, but it has 86 tunnels and 220 fine iron bridges in that distance. No army could march from Caracas to Valencia, for a handful of men could bar the passage.

"The railroad which runs from La Guavra to the capital, Caracas, is 24 miles long, yet the distance in an air line is but six miles. If sufficient elevation could be obtained I see no reason why Caracas could not be bombarded from La Guayra. There is a range of the coast mountain about 3,000 feet high, which it would be necessary to shoot over, so it is hardly possible that the feat could be accomplished.

"For three weeks I slept under the walls of one of the forts at Puerto Cabello, which was bombarded by the allied fleet Saturday. A hundred years ago they might have been called fortifications, but in this age of the world are not worthy of the name.

John C. Haddock, an Independent Operator, Said that He Favored Giving the Mine Workers Concessions Under Certain Conditions.

Scranton, Pa., Dec 17 .- Notwithstanding the fact that the mine workers announced Monday that they had closed their case with the exception of calling one more witness, the entire two sessions of the strike commission yesterday were consumed in hearing three witnesses for the men. They were John C. Haddock, an individual operator; Rev. Dr. Peter Roberts, who is assisting the miners, and President Samuel Gompers, of the American Federation of Labor. The Circulars sent Free.

THE BUSY SEASON FOR MAIL CLERKS

The Men Who Look After Railway Mail Service Have Their Hands Full Now

These are busy days for the railway mail clerks.

The work of the railway mail clerk is not particularly exhaustive, but this ployes in the service of Uncle Sam. The present rush is due to the proximity of Christmas. The presents have begun to move in all directions, and this means work for the postal department. The employes who have the bulk of this work to attend to are the men upon the mail cars.

Cleveland is one of the large mail divisions of the government, and probably as many railway clerks have headquarters there as in any mail division in the country. The rush usually begins about ten days before Christmas and within a day or two tras" and substitutes set to work, but the regulars are compelled to work overtime.

These are trying times in the postal department. Everybody connected with the service is affected. The mail carriers suffer next to the train clerks. This season will prove to be exceptionally arduous, owing to The fall of temperature to below the the early opening of the season. now, eight days before Christmas, and this was never known in the history of the postal department.

Think Venezuelan Situation Is Growing Serious.

CABINET CONSIDERS SUBJECT.

Cuban Treaty Discussed and Regardas Highly Important that It Should Be Ratified at Once-Senate and House Proceedings.

Washington, Dec. 17 .- President after Mr. Oliver H. Sebring. under \$50 for every offense. It provides that the most extended and important meetings yesterday that has been held this fall. Foreign affairs particularly consumed the entire time of the ses sion. The Venezuelan situation was discussed in all its phases, but no conclusions were reached different from that which has actuated the president and his advisers through out the consideration of the troubles between Venezuela on the one side the plant in the city of East Liverpool the year just ending has been very sat. Other than this only the usual routine and Germany and England on the

The treaty with Cuba, which was negotiated in havana by General Bliss, and which arrived in Washing ton in General Bliss' hands yester day, was presented to the cabinet and considered in detail. It is ready for presentation to congress and probably will be transmitted to the senate within 24 hours. It is regarded as highly important that it should be ratified promptly, as the present Venezuelan situation emphasizes the necessity for coaling stations in Cuba. While definite action upon the treaty by the senate, or by congress, if the necessity arises to present it also to scarcely to be expected before the pleasing decorations. Then there are of's, are arranging to spend their holiday recess, the administration is hopeful of prompt consideration of it after congress convenes.

Senators Talk on Venezuela.

The Venezuelan question occupied formally almost immediately after the house was excluded. Senator Teller disclaiming all intention of being crit ical, and saying he merely desired in formation, asked Senator Cullom chairman of the committee on foreign relations, for the information he po sessed as to the Venezuelan affair. Mr. Teller, in inquiring, said that the situation is such that senators fell might become involved, if the compli cation should continue

Senator Cullom replied to the in quiry that he had no knowledge of recent events not contained in the public prints. Senators Bacon, Hoar, Lodge and Stewart all made remarks In none of the addresses was any thing harsh or critical said. The tone of all the speeches, whether by Re attitude of this nation should be on of watchfulness. There was a ger eral agreement that while the means adopted by Great Britain and Ger had been quite strenuous, they thus had done nothing to which the United States could take exception.
